grillfloss[®]
cleans where brushes can't

How to Grillfloss

Push forward, cleaning the top and both sides.

Turn until the cleaning head wraps completely around the grill grate.

Pull back shaving off all remaining grill gunk from the bottom of grill grate.

Clean like never before.

About Grillfloss

The brush can't reach the sides or bottom of the grill, leaving harmful gunk that gets cooked into your next meal. Like dental floss, Grillfloss cleans where brushes can't, the underside of the grill grates. With a simple **push, turn** and **pull**, Grillfloss wraps around each grill rod, cutting through the toughest caked-on grill gunk.

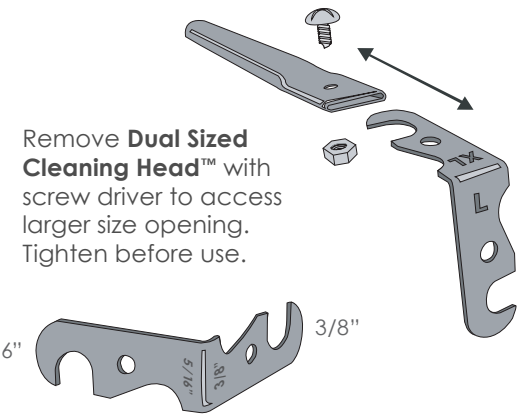

Unique design includes a Dual Sized Cleaning Head™ for small and large round grill grates, a 22-inch long handle to reach all areas of a hot grill, and stainless steel construction that will outlast any brush.

Grillfloss Features

- Cleans all sides of grill grates, shaving off past grill gunk.
- Use while cooking to create perfect sears.
- Stainless steel construction that will outlast any brush.
- Eliminates unhealthy charred debris and potential carcinogens.
- Patent Pending design with **Dual Sized Cleaning Head™**

Adjustable for use on all round grill grates.

Remove **Dual Sized Cleaning Head™** with screw driver to access larger size opening. Tighten before use.
